Attention: Greg Fast ; President

During the past years, I have had the pleasure of working with your firm, via my clients as project coordinator, and have realized that the projects were in part successful due to the professional input received by your firm. Your expertise in the construction costing and putting up the physical building along with the construction supervision & administration was truly appreciated.

I therefore would have no problems in recommending your firm to any organization needing a very reliable construction firm.

Yours truly,

Dennis Siwak
President

PROJECT COORDINATORS, PROJECT MANAGERS
